HOSPITAL PROGRESS (February, 1961, Vol. XLII, No. 2, Part II) published monthly by The Catholic Hospital Association of the United States and Canada, 1438 South Grand Blvd., St. Louis 4, Mo. Second class postage paid at St. Louis, Mo., and at additional mailing offices. Subscription price: U.S. and Canada, $4.00; Foreign, $5.00. Single copies: 50¢, except two-part February issue, $5.00. Copyright.

The 1961 Directory

THIS 32ND ANNUAL EDITION OF THE *Directory* of Catholic Hospitals, Related Health Facilities, Schools of Nursing and other agencies engaged in health and related fields is unique in many ways. Probably for the first time in its history the *Directory* contains statistical information based on an almost 100 per cent return of questionnaires. Only three Catholic hospitals in the U.S. failed to return the statistical questionnaire sent out by the Central Office. We are very grateful for this excellent spirit of coöperation which has enabled us to collect invaluable information.

The statistical story of Catholic hospital services in this country and Canada will provide a basis for projection of the individual hospital story to the community and the nation. To this end we urge that administrators, public relations directors and school of nursing faculties study the contents of this *Directory* and utilize its potential.

Purchasing agents will find a "Buyer's Guide" to assist them in locating all of the myriad goods and services modern hospitals require.

The format of the *Directory* has changed somewhat. Hospitals and Allied Agencies were listed in the same section in past years. For 1961, hospitals have been listed in one unit, followed by a new classification, "Related Health Facilities," both in Part I. The new and more exact criteria for these two categories are detailed in the pages of that section.

As in the past, Nursing Education Facilities are listed in Part II, beginning on page 163. Developments in this field are very significant and a brief resume precedes the listings of schools of nursing in the United States and Canada.

Part II, Education for Hospital Service, has been expanded to include the addresses of schools offering courses in paramedical subjects. These important wellsprings of personnel are listed to provide administrators, superiors and recruiters with a ready reference of hospitals and other institutions carrying on the vital function of education for hospital service.

Part IV is the popular listing of Religious Organizations Engaged in Hospital Activities and Nursing Education. An attempt has been made to include all hospitals and agencies operated by the various communities of religious. The scope of activities of a particular group of religious is immediately available in this section.

General Information about Professional and Governmental Agencies in Hospital Services is contained in Appendix A. The Personal Membership Roster of the Association is reproduced and, for the first time, the names of the Presidents of the National Federation of Catholic Physicians' Guilds are listed.

Many hours of labor and a large amount of money have been expended by the staff of the Central Office in an intense effort to make this *Directory* completely accurate and more valuable than ever before to our readers. A glance at the Table of Contents on Page 21 will indicate the scope of this work. A few minutes of study of the *Directory* pages themselves will prove that almost any information sought about the Catholic hospital system may be found in these pages.

Especially this year, the editors of this *Directory* and all the staff members whose efforts have made it possible are deeply indebted to the thousands of brothers, sisters and lay persons working in Catholic hospitals, related health facilities and schools of nursing. Their unparalleled spirit of coöperation is, as in years past, the basis for this year's *Directory*.

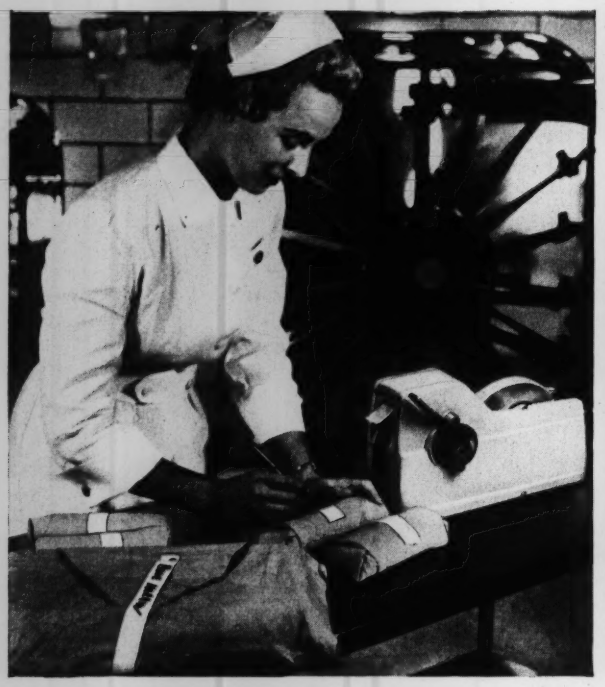
Before Autoclaving — After Autoclaving

You're sure with "SCOTCH" BRAND Hospital Autoclave Tape No. 222



WON'T POP LOOSE even in high steam temperatures. "SCOTCH" Brand Hospital Autoclave Tape No. 222 sticks at a finger touch. Seals linen or paper packs quickly, *surely*. Peels off clean, leaving no stains or gummy residue. You can even write on it with pencil, ink or typewriter.

SPECIAL INKS in "SCOTCH" Hospital Autoclave Tape No. 222 *can't* be accidentally activated by sunlight, radiator heat or a dry air pocket in a faulty autoclave. Only correct levels of heat AND moisture can make these distinctive markings appear. And you can see them across a room!

REG. U.S. PAT. OFF. SCOTCH BRAND Hospital Tapes

"SCOTCH" is a registered trademark for the pressure-sensitive adhesive tapes of 3M Co., St. Paul 6, Minn. Export: 99 Park Ave., New York 16. Canada: London, Ontario.

DIRECTORY OF REGIONAL CONFERENCES OF CATHOLIC HOSPITALS

INTRODUCTION

THE NEED FOR state and regional organization among Catholic hospitals was recognized as early as 1921. Since that time, this type of organization has grown until at the present time there are 39 Conferences of Catholic hospitals organized either on a state, regional or diocesan basis in the United States and nine conferences organized on a provincial basis in Canada.

One of the anticipated projects of the Catholic Hospital Association is an attempt on the part of the headquarters office to be of greater assistance to these regional groups in order to strengthen the entire program of Catholic hospitals and their future in the health care of our two nations.

The listing below follows a geographical sequence rather than alphabetical one, both on a national basis and within each region.

I. UNITED STATES

MIDDLE ATLANTIC STATES

Brooklyn Diocesan Conference of Catholic Hospitals

Originally established: 1922

No. of Hospitals: 10 Beds: 2,179 Bassinets: 261

Pres.: Sister M. Justina
Arborg, Manitoba

Vice-Pres.: Sister Ste. Helene de Rome
Misericordia General Hospital, Winnipeg

Sec'y-Treas.: Sister Ethelburga
Johnson Memorial Hospital, Gimli

Sp. Dir.: Rev. R. Durocher, o.m.i.
Winnipeg

Catholic Health Facilities in 1960

by EDWARD A. BEHRMAN • St. Louis, Mo.

THE 32ND ANNUAL EDITION of the Catholic Hospital *Directory* presents material relating to the activities of hospitals and related health facilities serving the people of the United States and Canada. This edition also introduces a substantial revision of the criteria for listing hospitals and related health facilities.

For listing purposes, a *hospital* is an institution that meets the requirements for hospital listing of the American Hospital Association, as witnessed by: 1. annual listing by that organization; or 2. formal application presently pending. (This is independent of membership in the American Hospital Association.) Consequently, some of the institutions which were previously listed as hospitals have been reclassified either as related health facilities, or have been dropped from the listing.

In addition, the related health facilities (formerly called Allied Agencies) have been separated from the hospital listings and now follow the hospital listings as a separate unit of the *Directory*. An institution may be listed as a *related health facility* if it provides organized health services but does not fulfill the above requirements for a hospital.

The various types of related health facilities have been defined as follows:

Chronic-Convalescent — Most nursing homes will be classified in this category.

a. Admits patients who are chronically ill or disabled.
b. Objective is to discharge patients as soon as medically prescribed by a physician; includes medical and nursing services as well as supportive and rehabilitative services.
c. May be referred from a hospital or from a private source.
d. Admission physical.
e. Average stay over 30 days.

Home for the Aged

a. Admits well, aged individuals only.
b. Objective is to provide a permanent home for the individual.
c. Provides facilities for medical care as needed for residents, including bed nursing care, but hospital medical care available elsewhere on a transfer basis.
d. Patient under care of a physician in the medical care facility. (Homes for the Aged which do not provide bed-nursing care when needed by residents are *not* listed.)

Cancer—chronic-convalescent facility restricting admissions to cancer patients.

Maternity—a related health facility which provides principally obstetrical care including deliveries within the institution.

Pediatric—a related health facility which provides pediatric, medical

(Continued on page 56)

and nursing care on a limited basis. More serious cases are sent to a hospital.

Psychiatric—a related health facility which provides care for various types of psychiatric patients to include epileptic and mentally retarded patients.

Clinic—a related health facility which provides organized health care for ambulatory patients under the supervision of a physician. This includes provision for diagnostic and therapeutic services.

Visiting Nurse—an organization which provides nursing care in the patient's home.

Catholic Hospitals

For the United States and Canada the magnitude of the Catholic hospital field is set forth in Table 1. A survey of Catholic hospitals in the United States and Canada in 1960 shows that, in terms of number of hospital beds and bassinets, there are 1,155 hospitals having 202,033 beds and 27,865 bassinets. Catholic hospital facilities were increased by the addition of 18 hospitals in the United States and Canada having 1,299 beds and 252 bassinets. Redefinition and reclassification of hospitals and related health facilities mentioned above resulted in the decline in the number of institutions formerly listed as hospitals.

Catholic Hospitals in the United States

The number of Catholic hospitals in the United States was increased by the addition of 12 hospitals with a bed and bassinet complement totaling 881 beds and 199 bassinets respectively. There are 833 general and special short term Catholic hospitals in the United States having a total bed capacity of 135,192 and 21,941 bassinets; and there are 35 special long term hospitals with 5,073 beds and 69 bassinets. Detailed information is given for each state in Table 2. Table 1 shows a decrease in hospitals which is due to reclassification and redefinition of institutions listed in previous years as hospitals.

Canadian Hospitals

Six new Canadian Catholic hospitals were listed in 1960 having 418 beds and 53 bassinets. Of this number three were general, one cardiac, one psychiatric and one chronic-convalescent. There are 239 general and special short term Catholic hospitals in Canada having a total bed capacity of 36,825 beds and 5,760 bassinets; and there are 39 special long term hospitals with 23,584 beds and 14 bassinets. It also can be noted that reclassification and redefinition effected an over-all decrease in the number of hospitals. These institutions were either reclassified as related health facilities or dropped from listing in the *Directory*. Detailed information appears in Table 2.

Regional Distribution

The general location and extent of facilities in the United States is presented in Table 3. The heaviest concentration of Catholic hospitals is found in the East North Central States; second in rank is the West North Central, while the Middle Atlantic and the West South Central states rank third and fourth. Based on bed complement, the order of rank changes to the East North Central, the Middle Atlantic, the West North Central and the Pacific regions.

A regional analysis of Catholic hospitals by bed size is illustrated in Table 4. In reviewing the Table, it will be noted that 68 per cent of the Catholic hospitals fall in the 50-299 bed size

group with the highest concentration (30 per cent) falling in the 100-199 bed category. The picture changes somewhat when a similar analysis is made by total bed capacity as shown in Table 5. Seventy per cent of the total beds fall in the 100-499 bed category, while the highest concentration of beds is in the 300-499 bed category.

Hospital Utilization

The *1961 Directory* inaugurates reports of utilization of beds and bassinets in Catholic hospitals for 1960. On the average day in 1960 there were 105,217 patients in Catholic hospitals throughout the United States as reported by the 852 hospitals out of 868. There were almost five million admissions reported by these hospitals. It is interesting to note that 682 of the reporting hospitals recorded 1,712,360 Catholic admissions which represents 44 per cent of the patients admitted to those hospitals, and conversely 56 per cent were non-Catholic admissions.

The per cent of occupancy was 76 per cent which reflects the national occupancy rate for this type of hospital. The East North Central region reported the highest occupancy rate, while the lowest rate of occupancy was reported by the Pacific region. Seven hundred and eight-five of the hospitals reported 876,913 births and an average daily census of 11,169 with a bassinet occupancy rate of 52 per cent. On the average day during 1960, 2,396 children were born in United States Catholic hospitals, as reflected in the records of reporting hospitals. Specific information pertaining to a given hospital region and state can be obtained in Tables 6 and 7.

Departmental, Nursing, Clinic Services in General and Special Short Term Hospitals

Information concerning hospitals providing specified facilities and services is presented in Table 8. The scope of the information in this area includes the following: departmental facilities and services, special nursing divisions and outpatient and clinic services. More than 90 per cent of the hospitals reported Laboratory Service, Medical Record Library and Diagnostic X-ray.

It is of interest that 14 per cent reported Chronic-Convalescent Divisions; and six per cent reported Homes for the Aged with 1,641 beds. In addition, 58 per cent had post-operative recovery rooms in surgery with 3,253 beds; and 16 per cent reported obstetrical recovery rooms with 542 beds.

Catholic Hospitals and Contract Services—A Survey

by CHARLES E. BERRY
Assistant to the Executive Director

THE CENTRAL OFFICE receives numerous inquiries about the advantages of utilizing contract services. In an attempt to determine just how common this practice has become in our short-term hospitals, the information in Figure I was accumulated.

The 865 hospitals answering this question reported 240 service contracts in the four listed areas. As might be expected, greatest utilization was in providing laundry services. Small hospitals in many areas find it economically advantageous to have linen processed by commercial firms. Although we do not have comparative figures for previous years, it is safe to assume that the practice of delegating responsibility for the provision of service has increased. Since an increasing number of our hospitals find it expedient to operate under such an arrangement the need for further study is emphasized. Some of the questions we hope to answer include: 1. Form of contract. 2. Number of hospitals who have abandoned contract service after a reasonable trial. 3. Advantages and disadvantages of: a. *service,* b. *cost,* c. *flexibility.* 4. Size of hospital most effectively utilizing outside services. 5. Does this represent a trend in the Catholic hospital field?

A perennial problem involves relationships with medical specialists. In an effort to clarify existing patterns hospitals were requested to report on arrangements for providing the services of anesthesiologists, cardiologists and radiologists.

Three hundred and thirty-eight hospitals have one or more anesthesiologists on their staffs. *(See Figure II)*

The practice of considering the anesthesiologist a completely independent practitioner not subsidized by the hospital in any form is desirable and followed in 63 per cent of reporting hospitals. The figures are perhaps surprising in that over 20 per cent of the anesthesiologists receive a salary from the hospital and slightly more than 16 per cent have a commission arrangement. In order to test the validity of

the statistics, questionnaires were reviewed and combinations of salary and commission were arbitrarily included as commission arrangements in the breakdown. All relationships then fell into the three categories of salary, commission, or independent practitioners.

The most common arrangement is that of paying the cardiologist a commission on each film strip interpreted. Questionnaires reporting other arrangements were analyzed and in most instances the physician sent his statement directly to the patient. *(See Figure II)*

Six hundred and eighty-three hospitals of the 865 reporting indicated a formal arrangement for reimbursement of pathologists. Based on experience, it is probably safe to assume that a majority of the remaining hospitals send their tissues to a laboratory outside the hospital. Worthy of note is the number of pathologists on a straight salary basis. The 91 questionnaires reporting another arrangement were spot checked for additional information. Several variations were found, including four hospitals where space was leased to the pathologist. The majority of the remaining hospitals reporting in the "other" category had a flat fee per tissue arrangement. Most of these hospitals were small and did not require the full-time services of a pathologist. *(See Figure II)*

Seven hundred and thirty of the 865 hospitals reporting indicated a formal contractual arrangement with radiologists. Again, the number of radiologists on salary exceeded expectations. The commission arrangement apparently is the most widely accepted. As with the pathologist, those hospitals reporting in the "other" category indicated many and varied contractual agreements. Two hospitals leased space to the radiologists. Other arrangements included guaranteed incomes, a flat rate per plate, and in some instances a flat fee per part of body examined. Each of these programs were undoubtedly designed to meet a particular situation and fill a need on mutually agreeable terms, but no evidence exists that there is any trend away from the almost traditional commission contract. *(See figure II)*

In summary, it would appear that the majority of the physicians offering specialists' services in the areas indicated are agreed upon the method of reimbursement. The hospitals reporting arrangements other than salary or commission represent a relatively small percentage and the methods of reimbursement reported were so varied as to exclude the likelihood of a new trend developing in methods of reimbursement. ★

Related Health Facilities in the U. S. and Canada

For the United States and Canada the magnitude of the Catholic related health facilities is set forth in Table 9. In terms of the number of related health facility beds, there are 402 institutions having 33,292 beds and 165 bassinets. Included in these bed totals are domiciliary beds for Homes for the Aged and Chronic-Convalescent institutions. Institutions providing only domiciliary care and no organized health services are not included in these figures.

In the United States and Puerto Rico there are 349 related health facilities having 27,865 beds and 126 bassinets; Canada has 53 related health facilities with 5,427 beds and 39 bassinets.

The regional location and the extent of the facilities in the United States is presented in Table 10. The heaviest concentration of Catholic related health facilities is found in the Middle Atlantic States with the East North Central States second in rank; while the heaviest concentration of Catholic hospitals is found in the East North Central States with the West North Central States second in rank.

In reference to the type of facility, Homes for the Aged lead with 185 institutions; second in rank are Chronic-Convalescent institutions with 89. ★

THE CATHOLIC HOSPITALS

of the United States and Canada

Arrangement of the Directory

This section of the *1961 Directory* has been changed somewhat from previous years. Reclassification of some institutions has been necessary, as an attempt was made to adhere more closely to the listing requirements for hospitals of the American Hospital Association. All institutions in the hospital section are either listed or have applied for listing. (See next page for listing requirements of A.H.A.) Each hospital listing in this section is a self-contained unit showing bed size and services available. Special nursing units are now designated by a code number rather than stating the full description in the listing, as was formerly done. Hospitals are listed alphabetically by state and city. Canadian hospitals are listed immediately following United States hospitals in the 1961 *Directory*.

This year, following the hospital section, there is a separate section for related health facilities, formerly called allied agencies. This classification includes health institutions which do not fulfill the listing requirements mentioned above. These were formerly listed immediately following the hospitals in a given state.

Symbols for Professional and Educational Status

To supply as much information as possible and at the same time to conserve space, the following symbols have been employed:

▲ Accredited—Joint Commission on Accreditation of Hospitals (as of December 31, 1959.)

Internship Approval:

★ American Medical Association (for United States)

★ Canadian Medical Association (for Canada)

Approval for Residency or Fellowship in a Specialty:

✚ American Medical Association (for United States)

✚ Canadian Medical Association (for Canada)

□ Teaching Hospital—affiliated with a medical school with a footnote placed at the end of the column stating the name of the medical school.

◊ Hospital School of Nursing

♦ Hospital School of Practical Nursing

Ownership of the Hospital

Following the name of the institution is the code number denoting the religious group conducting it. Reference to Part IV will afford the reader full information concerning this code system.

Hospitals Not Owned by Religious

◀ This symbol is placed before the name of the hospital; a footnote at the end of a column records the name of the owning group, whereas the code number following the name of the hospital designates the religious group responsible for its operation.

Abbreviations

The following abbreviations are employed throughout the listings.

Card.	Cardiology
C. P.	Cerebral Palsy
Chr.-Conv.	Chronic and/or Convalescent
Gen.	General
Lepro.	Leprosy
Mat.	Maternity
Med.	Medical
Orth.	Orthopedic
Ped.	Pediatric
P. T.	Physical Therapy
Psych.	Psychiatric
T. B.	Tuberculosis
V. N.	Visiting Nurse

Facilities and Services

Facilities and services are designated by the following code preceded by an arrow (→):

Symbol	*Facilities and Services*
1	Blood Bank
2	Central Sterile Supply
3	Cobalt Therapy
4	Dental Department
5	Drug Room (not Pharmacy)
6	Electrocardiographic Service
7	Electroencephalographic Service
8	Isotope Therapy
9	Laboratory Service
10	Medical Library
11	Medical Record Library
12	Medical Social Service
13	Occupational Therapy Service
14	Pharmacy
15	Physical Medicine Department (directed by M.D.)
16	Physical Therapy Service
17	X-ray—Diagnostic
18	X-ray—Therapeutic

Special Nursing Divisions

30	Alcoholic
31	Cardiac
32	Chronic-Convalescent
33	Home for the Aged
34	Obstetrics
35	Orthopedic
36	Pediatric
37	Poliomyelitis
38	Premature Nursery
39	Psychiatric
40	Recovery Room: Obstetrics
41	Recovery Room: Surgery
42	Tuberculosis

Outpatient and Clinic Services

50	Outpatient Department
51	Alcoholic Clinic
52	Cancer Clinic
53	Heart Clinic
54	Mental Hygiene Clinic
55	Psychiatric Clinic

Titles of Designated Hospital Personnel

Titles of designated hospital personnel appear at the right side of the name by means of the following symbols:

Administrator	(A)
Director of Nursing Service	(N)
The Reverend Chaplain	(C)

Key to Abbreviations of Ecclesiastical Jurisdictions

The abbreviation of the Ecclesiastical Jurisdiction is placed on the right of the city or town wherein a Catholic hospital is located.

CATHOLIC RELATED HEALTH FACILITIES

of the United States and Canada

Arrangement of the Directory

THE *1961 Directory* presents a new, separate section for institutions which provide some health care but which do not fulfill the listing requirements for a hospital. These have been classified as related health facilities (formerly allied agencies). In previous years these institutions were listed immediately following the hospitals in each state. The format for listing in this section is the same as that used in the hospital section, and the standard codes and abbreviations are employed. Listing in this section is done without regard to membership in the Catholic Hospital Association.

In an attempt to properly classify these institutions by type of care the following definitions have been employed:

Chronic-Convalescent

a. Admits patients who are chronically ill or disabled.
b. Objective is to discharge patients as soon as medically prescribed by a physician; includes medical and nursing services as well as supportive and rehabilitative services.
c. May be referred from a hospital or from a private source.
d. Admission physical.
e. Average stay over 30 days.
f. Most nursing homes will be classified in this category.

Home for the Aged

a. Admits well, aged individuals only.
b. Objective is to provide a permanent home for the individual.
c. Provides facilities for medical care as needed for residents, including bed nursing care, but hospital medical care available elsewhere on a transfer basis.
d. Patient under care of a physician in the medical care facility.

Cancer—chronic convalescent facility restricting admissions to cancer patients.

Maternity—a related health facility which provides principally obstetrical care including deliveries within the institution.

Pediatric—a related health facility which provides pediatric, medical and nursing care on a limited basis. More serious cases are sent to a hospital.

Psychiatric—a related health facility which provides care for various types of psychiatric patients to include epileptic and mentally retarded patients.

Clinic—a related health facility which provides organized health care for ambulatory patients under the supervision of a physician. This includes provision for diagnostic and therapeutic services.

Visiting Nurse—an organization which provides nursing care in the patient's home.

It is recognized that as this section of the *Directory* grows, these definitions will be further clarified.

In listing bed capacities for Homes for the Aged and chronic convalescent institutions the total bed complement is specified, including beds for healthy, aged individuals as well as beds used for people requiring nursing care.

A listing of Canadian related health facilities follows the United States section.

Abbreviations

The following abbreviations are employed throughout the listings.

Card.	Cardiology
C. P.	Cerebral Palsy
Chr.-Conv.	Chronic and/or Convalescent
Gen.	General
Lepro.	Leprosy
Mat.	Maternity
Med.	Medical
Orth.	Orthopedic
Ped.	Pediatric
P. T.	Physical Therapy
Psych.	Psychiatric
T. B.	Tuberculosis
V. N.	Visiting Nurse

Types of Service

Facilities and services are designated by the following code preceded by an arrow (→):

Symbol	*Facilities and Services*
1	Blood Bank
2	Central Sterile Supply
3	Cobalt Therapy
4	Dental Department
5	Drug Room (not Pharmacy)
6	Electrocardiographic Service
7	Electroencephalographic Service
8	Isotope Therapy
9	Laboratory Service
10	Medical Library
11	Medical Record Library
12	Medical Social Service
13	Occupational Therapy Service
14	Pharmacy
15	Physical Medicine Department (directed by M.D.)
16	Physical Therapy Service
17	X-ray—Diagnostic
18	X-ray—Therapeutic
	Special Nursing Divisions
30	Alcoholic
31	Cardiac
32	Chronic-Convalescent
33	Home for the Aged
34	Obstetrics
35	Orthopedic
36	Pediatric
37	Poliomyelitis
38	Premature Nursery
39	Psychiatric
40	Recovery Room: Obstetrics
41	Recovery Room: Surgery
42	Tuberculosis
	Outpatient and Clinic Services
50	Outpatient Department
51	Alcoholic Clinic
52	Cancer Clinic
53	Heart Clinic
54	Mental Hygiene Clinic
55	Psychiatric Clinic

Titles of Designated Related Health Facility Personnel

Titles of designated related health facility personnel appear at the right side of the name by means of the following symbols:

Administrator	(A)
Director of Nursing Service	(N)
The Reverend Chaplain	(C)

Ownership of the Related Health Facility

Following the name of the institution is the code number denoting the religious group conducting it. Reference to Part IV will afford the reader full information concerning this code system.

Facilities Not Owned by Religious

◀ This symbol is placed before the name of the facility; a footnote at the end of column records the name of the owning group, whereas the code number following the name of the facility designates the religious group responsible for its operation.

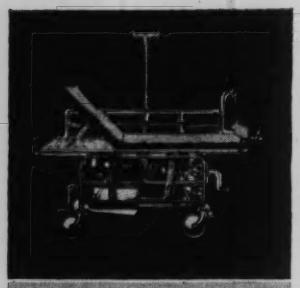
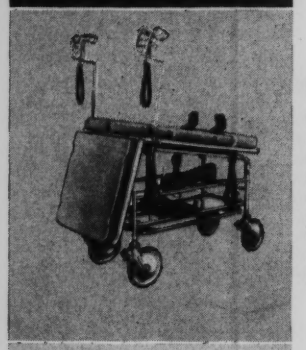
HAUSTED EQUIPMENT HAS BEEN DESIGNED WITH THE HOSPITAL'S STAFF AND PATIENTS IN MIND. WHEN YOU PURCHASE A HAUSTED UNIT, YOU CAN BE SURE OF GETTING TODAY'S HIGHEST QUALITY, MOST MODERN, EFFICIENT AND VERSATILE EQUIPMENT.



the EASY LIFT

With its ingeniously engineered two-way Slide and Tilt feature, the "Easy-Lift" unit is the ultimate in patient care and handling. One small nurse can transfer the heaviest patient easily. With available accessories the "Easy-Lift" is today's most modern emergency and recovery room unit.

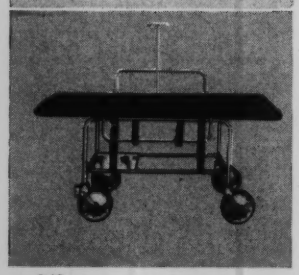


the CONVER-TABLE

Our most versatile unit. Ideally suited for use as a labor bed, recovery unit, O.B. examinations and emergency obstetrics . . . converts quickly from O.B. table to stretcher. Versatility is accomplished because of the unit's unique design and of the large selection of available accessories.

the STANDARD

A leader in its field. Modern, versatile, for Emergency and Recovery Room use. This competitively priced stretcher has numerous features not available on conventional stretchers. The unit is completely self contained. All accessories store on the stretcher ready for immediate use.



the ECONOMY

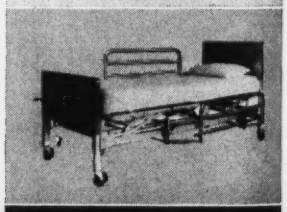
Dollar for dollar you can't beat the Hausted Economy. Designed for the simple transfer and movement of patients and engineered to give years of dependable service. The Economy is tops in the low priced field.

the PEDIATRIC

This newest member of the Hausted stretcher family answers a growing need for a smaller yet versatile stretcher. A large variety of optional accessories usually found only on larger units is available on this pediatric unit, making it adaptable to all pediatric needs as well as an invaluable adjunct to recovery room service.

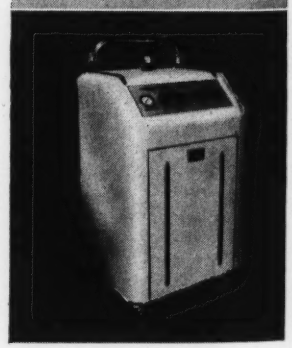
the INVAL-AID CHAIR

The most efficient, modern, and safe unit for incapacitated patient handling. The incapacitated patient can be transferred from bed to flat stretcher top and then by a simple turn of a crank the unit is converted into any chair position.



the BED RAILS

Now available is this all new permanently attached safety bed rail. This extremely rigid rail can be easily installed on 90 percent of today's hospital beds (without drilling or alteration to bed frame) giving adequate safety to patients. When in storage, bed rail is completely out of the way and yet ready to be pulled up and into position for immediate use. Rail locks securely for added safety.



the TRACTIONAID

The ultimate in modern pelvic and cervical intermittent traction and manipulation. Is electronically controlled and hydraulically operated for smooth application. The TRACTIONAID is the only unit which compensates for the patient's movement and has complete control of "on" and "off" cycle.

Directory Arrangement

THE Directory of nursing education activities under Catholic auspices is divided into three sections:

I —Basic Nurse Education
- A. United States and Puerto Rico
- B. Canada

II —Practical Nurse Education
- A. United States and Puerto Rico
- B. Canada

III—Graduate Nurse Education
- A. United States
- B. Canada

Abbreviations for the diocese and the Religious Order numbers which appear in the entries are the same as those used for the Hospital Directory. Other symbols used in the Nursing Education Directory include:

General Education Accrediting Agencies (United States only):

C Accredited by the North Central Association of Colleges and Secondary Schools.

M Accredited by the Middle States Association of Colleges and Secondary Schools.

N Accredited by the New England Association of Colleges and Secondary Schools.

P Accredited by the Western College Association.

S Accredited by the Southern Association of Colleges and Secondary Schools.

W Accredited by the Northwestern Association of Secondary and Higher Schools.

Professional Accreditation (United States only):

♦ Full accreditation by the National League for Nursing.

♦ P.H. Program approved as preparing for beginning positions in Public Health Nursing.

⊙ Listed by the National League for Nursing as "action deferred pending re-survey."

Practical Nurse Program Approvals:

⊙ Practical Nurse Program approved by the state approving authority. In Canadian entries, this symbol indicates approval by the Provincial approving authority.

○ Practical Nurse Program tentatively approved by the state approving authority. In Canadian entries, this symbol indicates tentative approval by the Provincial approving authority.

Enrollment:

E^1 Religious Students Enrolled.
E^2 Negro Students Enrolled.
E^3 Male Students Enrolled.

Clinical Facilities:

Medicine, surgery, pediatrics and obstetrics, unless otherwise indicated.	B.
Communicable Disease	Comm. Dis.
Diet Therapy	D.K.
Geriatrics	Geri.
Medicine	Med.
Neurology	Neuro.
Obstetrics	Ob.
Orthopedics	Ortho.
Out-Patient Department	O.P.D.
Pediatrics	Ped.
Psychiatry	Psych.
Public Health	Pub. H.
Rehabilitation	Rehab.
Tuberculosis	Tb.
Venereal Disease Clinic	V.D.

Hospital Approvals:

▲ Fully approved by the Joint Commission for Hospital Accreditation.

★ Approved by The American Medical Association for Internships.

✚ Approved by The American Medical Association for Residencies and Fellowships. *N.B.* In Canadian entries, this symbol indicates approval by the Department of Hospital Services of the Canadian Medical Association.

☐ Teaching hospital attached to a medical school—see footnote.

Miscellaneous Symbols:

X School not previously listed.

Y Incomplete information.

Z No admission—1960.

w Graduate Nurse Staff.

◇ Three-year school exists in same institution.

[ ] See Footnote.

Catholic Schools of Nursing

by **MARGARET M. FOLEY, R.N., M.S.**
Secretary • Conference of Catholic Schools of Nursing

AT THE BEGINNING of the academic year 1960-61, 318 state accredited Catholic schools of nursing in the United States reported an enrollment of 35,109 students. In the fall of 1959 there were 323 schools with an enrollment of 34,312 students. The 2.3 per cent increase in enrollment in basic professional programs preparing for nursing was achieved despite the closing of four hospital diploma schools, one basic degree program and diploma programs in three colleges which will continue to offer the basic degree program. In addition, seven diploma programs and two degree programs are in the process of closing, admitting no students in 1960. Included in the 318 schools are four diploma programs, one associate degree program and two basic degree programs which have not yet graduated their first class. One of these basic degree programs is newly established in 1960.

*Includes 22 programs approved for beginning preparation in public health nursing.
**Includes one associate degree program.
(1)Enrollment date as of Fall, 1960; accreditation as of January, 1961.

Two schools reported for the first time in 1959 have amalgamated resulting in a decrease of one in the number of schools and the only newly established diploma school in 1960. A diploma school scheduled for opening in January, 1961 is not listed in this issue of the *Directory* because no students were enrolled at the time the *Directory* went to press.

The influence of full accreditation has increased in both diploma and basic degree programs (Table 1). Nearly three-fourths of the 318 schools are fully accredited by the National League for Nursing (238 or 74.2 per cent) and these schools account for 83 per cent of all students enrolled in Catholic schools of nursing, 82.6 per cent of the 13,994 students admitted in the fall of 1960 and 82.9 per cent of the 1960 graduates.

TOTAL	42	4,589	276*	30,520	318	35,109

*Includes one associate degree program with 31 students enrolled.

Only 309 of the schools admitted students in 1960, one less than in the preceding year. The number of students admitted, however, increased by three per cent. The 40 basic degree programs admitting students in 1960, representing only 13 per cent of the admitting institutions, are responsible for half of the gain in admissions.

Graduates were reported by 315 schools and the 9,280 graduates represent a decrease of 4.6 per cent below 1959. The decline is entirely within the diploma school group, with 40 degree programs showing a 1.7 per cent increase in graduates.

The number of religious included in the reported admissions, graduates and enrollment is substantially unchanged since 1959. Of the 749 religious enrolled in 152 schools in the fall of 1960, 34.2 per cent are in basic degree programs as compared with 31.8 per cent in these programs in 1959. The number of men enrolled in the fall of 1960, 335 in 56 schools, represents a slight gain. Negro student enrollment declined from 397 in 1959 to 331 this year.

This year's *Directory* identifies 62 schools of practical nursing in 25 states, the District of Columbia and Puerto Rico, with a total of 1,886 students enrolled. This compares with 59 schools and 1,699 students reported in the previous *Directory*. The number of institutions included in this issue of the *Directory* in the category of baccalaureate programs for graduate nurses has been reduced from 39 to 35. Enrollment in these schools in the fall of 1960 was 3,301 students of which 32.6 per cent were enrolled full-time. Two hundred and seventy-five religious are included in this enrollment; 52.8 per cent of the religious are enrolled in fully accredited programs. Bachelor's degrees granted to registered nurses in 1960 totalled 742 as compared with 800 such degrees granted in 1959 (see Table 3). Data on enrollment in master's degree programs is reported in Table 4. Nearly two-thirds of the 440 students enrolled in graduate programs in nursing are studying on a full-time basis. Over one-fourth of the 440 students in master's degree programs in Catholic institutions are religious (123 religious or 27.9 per cent). The majority of these religious are reported by two schools offering fully accredited master's degree programs (102 religious or 82.9 per cent). ★

Part III

EDUCATION FOR HOSPITAL SERVICE

EDUCATIONAL PROGRAMS AVAILABLE IN CATHOLIC INSTITUTIONS WHICH PREPARE PERSONNEL FOR THE PARAMEDICAL FIELDS.

EDUCATION FOR CAREERS in the hospital and health fields is provided by Catholic hospitals and institutions of higher education in 11 professional and technical areas. A list of Catholic institutions offering such educational programs begins on the following page. This section has been enlarged over previous years in order to provide the full address of each school or hospital.

Only those programs which have some type of recognized approval system are reported, and only approved programs in Catholic schools or hospitals are listed. The following sources were used to identify approved programs in the United States:

Anesthesia (for Nurses)—1960 approved list of The American Association of Nurse Anesthetists

Medical Record Library Science
Medical Record Technicians
Medical Technology
X-Ray Technology
Occupational Therapy Technology
Physical Therapy Technology
} 1960 Approved list of the Council on Medical Education and Hospitals, American Medical Association.

Hospital Administration—member of the Association of University Programs in Hospital Administration

Programs listed for Pharmacy, Dietetics, Medical Social Service and degree programs in Medical Technology are limited to those offered by Catholic institutions of higher education, approved by a regional accrediting association, and also meeting the standards of the following respective approval programs:

Pharmacy—1960 approved list of the American Council on Pharmaceutical Education

Medical Social Service—1960 approved list of the Council on Social Work Education

Dietetics—1960 approved list of the American Dietetic Association.

Information about educational programs available in Canada was taken from the *1960 Canadian Hospital Directory.* All Catholic agencies listed for paramedical programs by the Canadian publication are included in Table 1 which follows, without reference to approved status.

Table 1 shows the total number of approved programs in Catholic institutions as compared with over-all figures for the United States. For some fields this latter figure was not available and therefore no figures are shown in the Table. The proportion of Catholic schools in the various categories remained fairly constant. Catholic institutions account for approximately one-third of the approved schools of Medical Technology, X-Ray Technology and Anesthesia. For Medical Record Library Science and Medical Record Technicians the proportion increases to nearly one-half. It is also interesting to note that in those categories which showed an increase in the total approved schools in the last year, the number of Catholic schools has shown a corresponding increase. Few Catholic schools offer courses in the fields of Occupational Therapy and Physical Therapy, and only one Catholic university offers an approved course in Hospital Administration.

Table 2 is a summary, by State and Province, of the various programs offered. 408 Catholic institutions in the United States offer courses in the 11 fields of service. (Nursing and practical nursing are shown elsewhere in the *Directory.*) 298 are hospitals and 110 are colleges or universities. This represents an over-all increase of 15 over 1959 figures. Some institutions offer as many as five different approved programs, but one educational program per institution is the most common. In all except one category the number of programs offered either remained constant or increased. Increases occurred in Medical Technology, Medical Social Service and X-Ray Technology. The larg-

est increase was the number of schools of X-Ray Technology. It should be noted that over the past three years the number of approved schools of X-Ray Technology has increased at a rate which brings the total increasingly closer to the number of schools of Medical Technology.

In Canada, 45 institutions offer one or more of these programs; 37 hospitals and eight colleges and universities. Medical Technology is the course most commonly offered.

Table 1. Comparison of Total Approved Programs with Total Approved Programs in Catholic Institutions

	Total Approved Programs	*Total Approved Programs in Catholic Institutions*
Anesthesia for Nurses	116	41
Hospital Administration	14	1
Medical Record Technicians	12	6
Medical Record Library Science	29 (12 Degree)	12 (8 Degree)
Medical Technology (AMA approved)	734	230
Medical Technology (Degree programs)	341	84
Occupational Therapy	29	2
Physical Therapy	40	2
X-Ray Technology	650	214

TABLE 3 PRESENTS enrollment data on approved programs. A similar analysis was shown two years ago in the 1959 *Directory*. By comparison, more schools reported these figures in 1960 than in 1958 and as a result the total current enrollment was higher in each case, *except* for medical record librarians. These schools showed a decrease of 13 in current enrollment, although capacity showed an increase of 13. This represents a present potential for enrollment of an additional 75 students; or stated differently, these schools could enroll 108 per cent more students than at present. Schools for nurse anesthetists could enroll an additional 25 per cent; medical record technicians 22 per cent; medical technology 57 per cent; x-ray technology 12 per cent. These figures suggest that perhaps greater efforts should be made to utilize the capacity of existing schools and that enrollment efforts should be geared to this end.

One other situation deserves comment, although it is not shown on the tables on these pages. In the fields of medical technology and x-ray technology there is a considerable number of schools which are not approved by the recognized approval organization (A.M.A.). These schools should be encouraged to make every effort to secure approval and proper recognition.

Table 3.
Enrollment Data on Approved Educational Programs in Catholic Hospitals in U.S.

	No. of Schools Approved	*No. of Schools Reporting*	*Total Enrollment Capacity*	*Total Current Enrollment*	*Number of Graduates in 1960**
Anesthesia	41	35	354	284	202

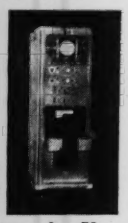
CAMBRIDGE
CARDIAC DIAGNOSTIC INSTRUMENTS

"Versa-Scribe"
The Versatile Electrocardiograph

The completely new portable instrument providing greatly improved performance and versatility not found in any other direct writing electrocardiograph. Small size (5¼" x 10½" x 17") and low weight—20 pounds.

Multi-Channel Recorders



For physiological research, cardiac catheterization and routine electrocardiography. Versatile and comprehensive, this series of new multi-channel recorders, when used with pertinent transducers, provides simultaneous indication and recording of EKGs, EEGs, stethograms and many other physiological phenomena. Various combinations of these functions can be traced simultaneously on a single record. Available in Photographic Recording and Direct Writing models.

ASSURE THE DOCTOR OF
Universally Accepted Records
Fundamental Accuracy
Lifetime Dependability
Minimum Maintenance Expense

Dye-Dilution Curve Recorder

Records changes of concentration of a dye injected at selected sites in the venous circulation. Determines cardiac output; detects and locates cardiac shunts.

Operating Room Cardioscope

Provides continuous observation of the Electrocardiogram and heart-rate during surgery. Warns of approaching cardiac stand-still. Explosion-proof. This cardioscope is a "must" for the modern Operating Room.

"Simpli-Scribe"
Direct Writer Electrocardiograph

Provides the Cardiologist, Clinic or Hospital with a portable direct writing Electrocardiograph of utmost usefulness and accuracy. Size 10⅜" x 10⅜" x 11"; weight 28 pounds, complete with all accessories.

Audio-Visual Heart Sound Recorder

Enables the Doctor to simultaneously HEAR, SEE and permanently RECORD heart sounds. Any portion of the heart sounds may be permanently recorded upon magnetic discs, which may then be played back and viewed at any time. When used in combination with the "Versa-Scribe" or "Simpli-Scribe" Electrocardiograph, the electrocardiogram may be viewed upon the cathode-ray screen of the Recorder while listening to the heart sounds.

CAMBRIDGE ALSO MAKES

EDUCATIONAL CARDIOSCOPE—For teaching electrocardiography and auscultation by audio-visual demonstration. The EKG, heart sounds and other physiological phenomena may be shown continuously on the 17-inch oscillograph screen. A tape recorder provides a permanent record of heart sounds which may be played back at any time for visual and audio demonstration in lieu of patients.

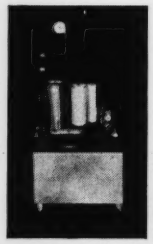
PLETHYSMOGRAPH—Records variations in volume of extremities as determined by the state of fullness of the blood vessels.

ELECTROKYMOGRAPH—Produces a continuous record of heart border motion at chosen points along the cardiac silhouette.

RESEARCH pH METER—For biological and research work. Sensitive to .005 pH, readings reproducible to .01 pH.

HUXLEY ULTRA MICROTOME—For cutting sections with exceptional uniformity between thicknesses of 100°A and 1500°A, in 50°A steps, for use with the electron microscope.

POCKET DOSIMETERS AND LINDEMANN-RYERSON ELECTROMETERS—For measurement of radioactive emission.



Pulmonary Function Tester

A completely integrated, easy-to-use instrument for the determination of such functions as Functional Residual Capacity, Tidal Volume, Vital Capacity, Total Lung Capacity, Total Breathing Capacity, Basal Metabolic Rate, etc.

RELIGIOUS ORGANIZATIONS ENGAGED IN HOSPITAL AND NURSING EDUCATION ACTIVITIES

Part IV

SINCE 1937 information regarding religious organizations in the hospital field (including nursing education programs) has been a feature of the annual Directory. Every effort is made by the compilers of this section to record all changes in organization of the almost 300 separate groups responsible for the conduct of these agencies of the Church. It is, therefore, of inestimable value as a means of accurately identifying the specific activities of each religious group active in this field.

Because the names of the various religious groups are in some instances lengthy or, in other cases, the same or similar to those of other religious groups, the Editors have devised a code number system by which to identify each of the organizations. The sequence of the various orders and congregations here listed is alphabetical by a significant word in the title of each.

In developing this plan, it was necessary to distinquish between orders of men and women, and to provide coding for the United States and Puerto Rico and Canada and its Territories. The letter "M" is used to designate each order of men. Religious orders active in the United States and Puerto Rico appear in the listing on page 263. The letter "C" is employed as a prefix to each Canadian code number. For Newfoundland, the letter "N" is used as the prefix. These appear in the listing on page 281.

When reference is made to the order, congregation, or organization owning or conducting an institution, the code number in parenthesis, placed to the right of the name or address of the institution, designates this fact.

When the institution conducts a school of nursing "s" is placed at the end of the last line of the entry; for a college engaged in graduate nurse education "ne" is placed after the last line of the entry; and for an agency conducting a program for practical nurses, the abbreviation "pn" is used.

United States

Groups	*Code Numbers*
Religious Orders of Men	M1-M10a
Sisters of St. Agnes, of Assumption, of St. Augustine, etc.	101-109a
Sisters of St. Benedict, of Bon Secours	201-225a

University of Ottawa
School of Nursing
30 Stewart St.
Ottawa 2, Ontario, Canada (ne)

Appendix A

PROFESSIONAL AND GOVERNMENT AGENCIES IN HOSPITAL SERVICE

Introduction

WHILE the "care of the sick" is the primary purpose of general and special hospitals, the other responsibilities and objectives of these institutions must not be overlooked—they include education for the professions, health education for patients and the public, research, etc. Though owned by various groups, government or non-government, it might be well to point out, too, that the hospital is the "workshop" of the medical profession—wherein the "sick" receive medical care from the physician in accordance with professional and scientific standards developed and promulgated by many medical groups of a general or specialized character.

Educational activities by the hospital—especially on behalf of nurses—are governed by standards promulgated by outside agencies. Educational programs in which the hospital cooperates are likewise governed by set standards. In many areas, hospitals act as cooperating agencies, subject to the observance of professional standards in the care of patients, the education of students, etc.

Realizing how varied are the activities of the hospital and how extensive its professional and government relations must be, the Editors of this Annual Directory some years ago recognized how helpful to the administrator and her staff might be a listing of all such groups. Such a listing would include various groups having direct and indirect interests in general and specialized hospital services.

Since there are approximately 155 agencies for Canada and the United States, the following groupings were employed for classification purposes:

I. International and National Hospital Associations
II. National Medical Associations
III. Special Medical Groups
IV. International and National Nurses' Associations
V. Related Professional Societies Having Hospital Interests
VI. Professional and General Educational Agencies
VII. National Dental Associations
VIII. National Public Health and Welfare Groups
IX. Related General Organizations
X. Government Agencies

An index arranged alphabetically affords easy access to the listing of particular agencies concerning which the reader may be seeking information.

For each organization an attempt was made to present the following data: name, year of establishment, address of central office, addresses of other offices (if any), principal officers, councils or committees concerned with hospital service, publications—including those devoted to hospital services, standards, etc. For each journal, the following information is given if available—name, year of establishment, frequency of publication, and annual subscription fees.

Index

APPENDIX A. VARIOUS PROFESSIONAL AND GOVERNMENT AGENCIES OF THE UNITED STATES AND CANADA HAVING HOSPITAL INTERESTS

I. INTERNATIONAL AND NATIONAL HOSPITAL ASSOCIATIONS

International Catholic Confederation of Hospitals
8 Carel van Bylandtlaan, Den Haag, Netherlands
Dr. J. Maisin, *President*
A.A.M. Sanders, *Manager*

International Hospital Federation
24-26 London Bridge Street, London, S.E. 1, England
Dr. J. C. J. Burkens, *Honorary Secretary*

American Hospital Association (1899)
Central Office: 840 North Lake Shore Drive, Chicago 11, Illinois
Washington Office: Mills Bldg., 17th & Pennsylvania Ave., N.W., Washington 6, D. C.

Officers
Frank S. Groner, *President*
John N. Hatfield, *Treasurer*
Edwin L. Crosby, M.D., *Director*

Publications
HOSPITALS (1936), Official Journal; Monthly; Annual Fee, $5.00

ADMINISTRATORS GUIDE ISSUE, Annual single copies $2.50
Special Publications and Monographs are also available

American Protestant Hospital Association (1920)
840 N. Lake Shore Drive, Chicago 11, Illinois

Officers
Frank R. Bradley, M. D., *President*
Leo M. Lyons, *Executive Director*

Publications
ASSOCIATION BULLETIN, *Quarterly*

Canadian Hospital Association (1931)
25 Imperial St., Toronto 7, Ontario, Canada

Officers
S. W. Martin, *President*
W. Douglas Piercey, M.D., *Executive Director*

Publications
CANADIAN HOSPITAL (1924), Official Journal, Monthly, Annual Fee $3.00
Canadian Hospital Directory, Annual

Special Bulletins and Committee Reports are also available.

Catholic Hospital Association of the United States and Canada (1915)
Central Office: 1438 South Grand Boulevard, St. Louis 4, Missouri
Canadian Office: Catholic Hospital Association of Canada, 312 Daly Avenue, Ottawa, Ontario
Rev. A. Lorenzo Danis, O.M.I., *Executive Director*

Washington Office: Bureau of Health and Hospitals, 1312 Massachusetts Avenue, N.W., Washington, D. C.
Msgr. D. A. McGowan, *Director*

Officers:[1]

Rt. Rev. Msgr. A. W. Jess, Camden, New Jersey, *President*
Rev. John J. Flanagan, S.J., *Executive Director*
Mr. M. R. Kneifl, *Consultant*

Publications
HOSPITAL PROGRESS (1920), Official Journal, Monthly, Annual Fee $4.00

DIRECTORY OF CATHOLIC HOSPITALS, Allied Agencies and Schools of Nursing of the United States and Canada. Annual

Also available are other publications concerning hospital administration, professional education, particularly nursing education, social welfare legislation and planning, public relations, spiritual care of patients, etc.

II. NATIONAL MEDICAL ASSOCIATIONS

Advisory Board for Medical Specialties (1933)
Kahler Hotel Bldg., Rochester, Minnesota
Louis A. Buie, Sr., M.D., *Secretary-Treasurer*

APPROVED SPECIALTY BOARDS[2]

American Board of Pediatrics
American Board of Psychiatry and Neurology
American Board of Orthopaedic Surgery
American Board of Dermatology
American Board of Radiology
American Board of Urology
American Board of Obstetrics and Gynecology
American Board of Internal Medicine
American Board of Pathology
American Board of Opthalmology
American Board of Otolaryngology
American Board of Surgery
American Board of Anethesiology
American Board of Plastic Surgery
American Board of Neurological Surgery
American Board of Physical Medicine and Rehabilitation
American Board of Preventive Medicine
American Board of Proctology
Board of Thoracic Surgery

American Medical Association,[3] (1847)
535 North Dearborn Street, Chicago 10, Illinois
F. J. L. Blasingame, M.D., *Exec. Vice President*
Council on Medical Education and Hospitals[4]
W. S. Wiggins, M.D., *Secretary*

Publications
THE JOURNAL of the AMERICAN MEDICAL ASSOCIATION (1883), weekly, Annual Fee $15.00
Internship and Residency Number Directory of Approved Internships and Residencies
Medical Education in the United States and Canada, Annual
Other Journals, Monographs and Special Publications concerning medical practice, medical education, medical economics and related topics are available.

Canadian Medical Association[3] (1867)
150 St. George St., Toronto 5, Ontario
A. D. Kelly, M.B., *Secretary*

Publications
CANADIAN MEDICAL ASSOCIATION JOURNAL, Weekly, Annual Fee $12.00
CANADIAN JOURNAL OF SURGERY, Quarterly, Annual Fee $10.00
Other Publications are also available.

National Medical Association (1895)
1108 Church Street, Norfolk 10, Virginia
John T. Givens, M.D., *Secretary*

Publications
JOURNAL of the NATIONAL MEDICAL ASSOCIATION (1908), Bi-monthly, Annual Fee $4.00

National Research Council (1916) of the National Academy of Sciences (1863)
2101 Constitution Avenue, N.W., Washington 25, D. C.
Division of Medical Sciences
R. Keith Cannan, *Chairman*

Publications
General and Special Reports are available.

National Research Council of Canada (1916)
Ottawa, Ontario, Canada
J. B. Marshall, *Secretary*

Publications
Reports and Special Studies are available.

Southern Medical Association (1906)
2601 Highland Ave., Birmingham 5, Alabama
Robert F. Butts, *Executive Secretary-Treasurer*

Publications
SOUTHERN MEDICAL JOURNAL (1908), Monthly, Annual Fee $10.00
Special Reports are also available.

World Medical Association
United States Committee, Inc.
10 Columbus Circle, New York 19, New York
Louis H. Bauer, M.D., *Sec. gen.*

---

[1]For Organization data, see page 23-28.

[2]See J.A.M.A. 10/4/58, p. 658.

[3]For full data concerning various organizational units, consult the JOURNAL OF AMERICAN MEDICAL ASSOCIATION.

[4]In addition to the program in Medical Education particularly in that section of it relating to the approval of Hospitals for Internships and Residencies in the Specialties, the Council also evaluates and publishes lists of Approved Schools for X-ray Technicians, Medical Record Librarians, Occupational Therapy Technicians, Physical Therapy Technicians and Clinical Laboratory Technicians.

[5]The Association carries on a program for the Approval of Hospitals for Internships. For other data, see CANADIAN MEDICAL ASSOCIATION JOURNAL.

III. SPECIAL MEDICAL GROUPS

American Academy of General Practice
Volker Blvd. at Brookside, Kansas City 12, Missouri
Mac F. Cahal, *Executive Secretary*

Publication
GP (1950), Monthly, $10.00 Annual Subscription Fee

American Academy of Pediatrics (1930)
1801 Hinman Avenue, Evanston, Illinois
E. H. Christopherson, M.D., *Executive-Director*

Publications
PEDIATRICS (1932), Monthly, Annual fee, $12.00
Other Publications are also available.

American Association of Obstetricians, Gynecologists (1888)
E. Stewart Taylor, M.D., *Secretary*
4200 E. Ninth Avenue, Denver 20, Colorado

Publication
TRANSACTIONS (1888), Annual Fee, $5.00

American Association of Pathologists and Bacteriologists (1900)
1542 Tulane Ave., New Orleans 12, Louisiana
Russell L. Holman, M.D., *Secretary*

Publication
AMERICAN JOURNAL of PATHOLOGY (1925), Bi-monthly, Annual Fee, $10.00

American Cancer Society (1913)
521 W. 57th St., New York 19, New York
Lane W. Adams, *Executive Vice-President*

Publication
CA—Bulletin of Cancer Progress (1951), Bi-monthly, Annual Fee, $2.50

American College of Physicians (1915)
4200 Pine Street, Philadelphia 4, Pennsylvania
E. C. Rosenow, Jr., M.D., *Executive Director*

Publications
ANNALS of INTERNAL MEDICINE (1927), Monthly, Annual Fee, $10.00
Other Publications are also available.

American College of Surgeons (1913)
40 East Erie Street, Chicago 11, Illinois
Paul R. Hawley, M.D., *Director*
Hospital Standardization Program[6]

Publications
SURGERY, GYNECOLOGY and OBSTETRICS (1905), Monthly, Annual Fee, $15.00
BULLETIN of the AMERICAN COLLEGE of SURGEONS (1918), includes Approval Lists of Hospitals, Graduate Training in Surgery, Cancer Clinics, Medical Motion Pictures, Reports and Announcements, Bi-Monthly
Other Bulletins are also available.

American College of Radiology (1924)
20 North Wacker Drive, Chicago 6, Illinois
Wm. C. Stronach, *Executive Director*

Publications
ANNUAL BULLETIN
Monthly Newsletter

American Congress of Physical Medicine and Rehabilitation[7]
30 N. Michigan Ave., Chicago 2, Ill.

Officers
Dorothea C. Augustin, *Executive Secretary*

Publication
ARCHIVES OF PHYSICAL MEDICINE AND REHABILITATION, Monthly, Annual Fee, $5.00 (Formerly Archives of Physical Therapy)

American Heart Association (1922)
44 East 23rd Street, New York 10, New York
Rome A. Betts, *Executive Director*

Publications
CIRCULATION (1950), Monthly, Annual Fee, $14.00
CIRCULATION RESEARCH (1953), Bi-monthly, Annual Fee $9.00
MODERN CONCEPTS OF CARDIOVASCULAR DISEASE (1932), Monthly
THE AMERICAN HEART (1949), Quarterly

American Orthopaedic Association (1887)
535 E. 70th St., New York 21, N.Y.
Lee Ramsay Straub, *Secretary*

Publication
JOURNAL OF BONE AND JOINT SURGERY
Annual subscription $14.50
Single copies $3.00

American Ophthalmological Society (1865)
108 East 68th Street, New York 21, New York
Joseph A. C. Wadsworth, M.D., *Secretary-Treasurer*

Publication
TRANSACTIONS, Annual, Annual Fee, $10.00

American Psychiatric Association (1844)
1700 18th Street, N.W., Washington, D.C.
Matthew Ross, M.D., *Medical Director*

Publications
AMERICAN JOURNAL OF PSYCHIATRY (1844), Monthly, Annual Fee $12.00
MENTAL HOSPITALS (1950), Monthly except July & August
Special Reports are also available

American Society of Anesthesiologists (1905)
515 Busse Highway, Park Ridge, Illinois
John W. Andes, *Executive Secretary*

Publication
ANESTHESIOLOGY (1940), Bi-monthly, Annual Fee, $10.00, $10.50 Canada

---

American Society of Clinical Pathologists[8] (1922)
445 N. Lake Shore Drive, Chicago 11, Illinois
Eleanor F. Larson, Manager

Publication
AMERICAN JOURNAL OF CLINICAL PATHOLOGY (1930), Monthly, Annual Fee $6.00

American Thoracic Society (1905)
1790 Broadway, New York 19, New York
Medical Section of the National Tuberculosis Association
F. W. Webster, M.D., *Executive Secretary*

Publication
THE AMERICAN REVIEW OF RESPIRATORY DISEASES

American Urological Association Inc. (1902)
1120 North Charles Street, Baltimore 1, Maryland

new ROTARY machines, detergent and mender FOR

FAST, LOW-COST SURGICAL GLOVE PROCESSING

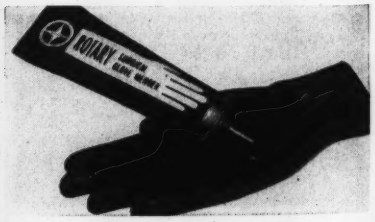
The fastest, easiest and most economical way to process surgical gloves is the Rotary way. For example: Even in a 100-bed hospital, Rotary machines will pay back their cost in actual savings over hand methods in less than a year.

WASHER: Specialized machine developed expressly for surgical gloves. Three times faster than hand method. Takes only 8 minutes of operator's time per load. No punishing agitators or fast rotating drums. Unique pulsating action cleans gloves thoroughly inside and out. Water drained automatically at end of each cycle. Stainless steel cabinet. Capacity: 150 gloves. Dimensions: 25″ wide x 20″ deep x 35″ high. Operates on 110V, 60C, AC.

DRYER: Designed specifically for surgical gloves. Drying time 30 minutes . . . three times faster than by hand. Takes less than one minute of operator's time. Faster, safer, because warm air at safe temperature is blown directly and continuously into tumbling drum . . . revitalizing the gloves as they dry. Excess water is removed at start of drying cycle. Totally enclosed heater thermostatically controlled to eliminate excessive heat build-ups. Unique air circulation keeps operating parts clean, promotes safety. Stainless steel cabinet. Capacity: 150 gloves. Dimensions: 25″ wide x 20″ deep x 35″ high. Operates on 110V, 60C, 15 amp AC.

POWDERER: Ten times faster than hand method. Powdering time 4 to 8 minutes (depending on thickness of coating). Takes less than one minute of operator's time. Even coating of powder, inside and out, without turning. Airtight. No powder escapes. Powder recovered in bin which doubles as measuring cup. Flat stainless steel work top with gray enamel or stainless steel cabinet. Capacity: 150 gloves. Dimensions: 25″ wide x 20″ deep x 35″ high. Operates on 110 V, 60C, AC.

GLOVE DETERGENT: Removes stubborn hospital soils quickly, safely. After rinsing, gloves are completely residue-free. Packaged in 12 moisture-proof 4 oz. packets to a self-dispensing wall hanger carton. Each packet contains the correct amount for one wash cycle (150 gloves or less) in a Rotary or any 18-23 gallon machine. Available also in 10-lb. bulk container.



GLOVE MENDER: Expressly formulated for repairing surgical gloves. As a liquid mender, it eliminates need for cutting and fitting patches. In itself, it is the patch. You simply squeeze on a thin layer and let it dry. Convenient 1-oz. tube.

FREE! GLOVE PROCESSING MANUAL

mailed on request, plus illustrated literature describing the all-new Rotary line.

ROTARY HOSPITAL EQUIPMENT CORP. • 1750 DALE RD., BUFFALO 25, N.Y.

Rotary products are distributed through accredited hospital suppliers in U.S.A., Canada and foreign countries.

You can always depend on prompt delivery of U.S.I. pure ethyl alcohol from one of these warehouse points

When U.S.I. is your supplier of pure ethyl alcohol, delivery is always prompt—for this reason: U.S.I. maintains a nationwide network of bonded warehouses. Chances are, one of these warehouses is within less than a day's delivery time of your hospital.

In addition, long experience in supplying pure ethyl alcohol enables U.S.I. to offer you helpful assistance in handling alcohol paperwork—permits and records. U.S.I. technical assistance, too, is based on long experience in serving hospitals such as yours.

With dependable U.S.I. delivery and service you can avoid fluctuations in your alcohol stock . . . tie-up of valuable storage space . . . needless complication of inventory records . . . the hazard of being caught short when you get a major emergency call.

U.S.I., America's oldest and most experienced producer of hospital and industrial ethyl alcohol, has been serving hospitals for more than half a century.

Specify U.S.I. ethyl alcohol . . . high in purity . . . prompt in delivery.

U.S.I. pure alcohol U.S.P.

THE "HOT" CANISTER

CONTAINS MALLINCKRODT INDICATING SODA LIME

When you use Mallinckrodt Indicating Soda Lime two important things happen: (1) the canister gets hot, indicating effective absorption of CO_2; (2) when the soda lime is no longer able to absorb CO_2 efficiently, it turns from rose to bright yellow. These two advantages help protect both you and the patient.

Efficient absorption is the rule with Mallinckrodt Indicating Soda Lime because it is tested for hardness, surface area, shape and size. We have developed a highly porous, popcornlike granule whose high surface area increases absorption rate and efficiency—**without impeding flow of gases.**

Our soda lime is protected in a sturdy airtight container (3 lb.), assuring freshness, with a free-pouring spout. Available through your usual source of supply.

Remember, too, Mallinckrodt makes the finest ether for anesthesia . . . unsurpassed for purity, potency and volatility. Packaged in the specially designed can with the uniquely treated surface which preserves pure anesthetic ether almost indefinitely and which we believe is superior to all others.

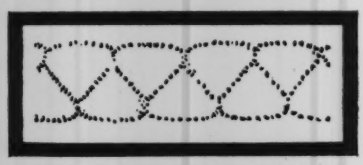
...we enlarged our Atlanta mill

Longlife Apron Duck is preferred because:

1. It delivers a beautiful, smooth finish
2. Woven to provide a minimum of stretch
3. Costs less per day of operation

One reason for its durability is that Longlife Apron Duck has more threads per inch — it's 4 x 5 ply instead of the usual 4 x 4. Longlife outwears duck of comparable weight by 20% and leaves less impression on finished work because the weave is finer. Another feature: The four control lines woven into the fabric make the apron run true.

Because we have been supplying laundries direct for nearly 60 years, we know the requirements of your operations and can satisfy all of your fabric needs. For further information about our line, ask any Tingue, Brown office to send a sales-serviceman to your plant.



Cross-section diagram showing the knitted construction of our 5/8" cotton padding for presses and flatwork ironer rolls. Cotton gives you more absorbency and resiliency than any other material. Tingue, Brown cotton padding retains its resiliency because it is knitted uniformly with exclusive double-filled rovings. Non-burning warp yarn substantially increases its useful life.

How to Secure Adequate Funds to Finance Your Hospital's Capital Requirements

Reliable financing for expansion begins with a sound analysis of your capital needs. **There is much involved in a hospital loan besides the mere furnishing of money. It is in this important area of service that B. C. Ziegler and Company provides the experienced and competent counsel to best study the hospital's financial requirements. It involves setting up the loan so that it will best serve the interests of the borrower throughout its term.**

Over the past 46 years, B. C. Ziegler and Company has underwritten more institutional loans than any other such company in America. Hundreds of organizations have benefited from this complete financial service. This experienced professional service continues all during the term of the loan.

All forms of loans are available—first mortgage bonds, unsecured notes, straight mortgage loans. Why not write or call on us for impartial professional advice? You deal directly with responsible officials.

REVENUE and/or RESERVED PARKING with WESTERN PARKING GATES

Western Parking Gates are so flexible, so dependable, so easy to operate they assure absolute control of hospital parking lots . . . either for Reserved Parking for Doctors and Staff . . . or Revenue Parking for Visitors' use . . . or both.

Keys, Electro-Cards, Coins, Tokens—Introduction of electro-card system gives hospital management a complete range of selection. Keys, electro-cards, coins, or tokens independently, or in combination, will operate the gates. Labor costs are entirely eliminated. Initial cost is low. Installation is easy. Almost no maintenance.

Special and Exclusive Features—Western, builder of more than 12,000 railroad crossing gates, has engineered into the gates such features as the "Lot Full" sign, the magnetic detector, double key controls for day and night parkers, push-botton remote controls, automatic counters and others. This enables Western to make this offer:

Western Parking Gates Will Be Shipped to Any Hospital in the United States on

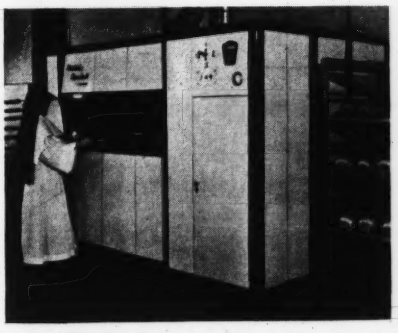
MIDDLEBY-MARSHALL

revolving tray ovens



For Cooking, Roasting and Baking the Modern Way

20-25% LESS MEAT SHRINKAGE . . . *bigger, juicer roasts . . . Better baked goods that remain fresh longer . . . Cooler kitchens . . . Reduced gas, labor and space costs.* Because of Middleby-Marshall's unique reputation for highest quality manufacture (M-M's patented main reel, for example, is guaranteed forever!) 11 times more winners—dietitians, kitchen designers, architects, etc.—had purchased M-M than any other revolving oven in the 1960 Food Service Contest.

FREE CONSULTATION SERVICE. We are delighted to work with dietitians, architects, food equipment consultants, equipment jobbers, etc. in developing detailed plans and specifications. Bulletins of various models and special sizing information is available.

8709 PIPING ROCK

For longest wear, easiest care

Bates® has the touch!

If you want your next bedspreads and linens to last, look at Bates *first*. You'll find the freshest new colors . . . slow to soil, immune to fading. You'll get the richest new textures . . . woven to throw off wrinkles, thrive on washing.

Only Bates can take all the use and abuse you can give them . . . and bounce back looking good as new!

BATES RIPPLETTE
Permanently crinkled cotton with reinforced weave provides for easy washing and extended "wear" qualities. Sizes 72 x 90", 72 x 99", 72 x 108", 90 x 108", all white.

"COLONIAL" MATTRESS PAD—style 1302
Non-lumping bed pad—preshrunk in width . . . gives longer service with continued comfort. Light-weight structure assures easy laundering and quick drying. Sizes 17 x 18", 26 x 34", 38 x 72", 38 x 76", 52 x 76".

Bates

How much for depreciation?

Although costs of reproduction of hospitals vary widely, let us assume the following data:

Present cost of hospital facilities, per bed.....$20,000
Weighted average life of buildings and equipment....40 years
Rate of occupancy.....90%

Under these hypothetical conditions, the proper depreciation charge would be $1.50 per patient per day—not an insignificant element of hospital costs!

Are you uncertain about your depreciation estimates? American Appraisal Service can establish and perpetuate the depreciation base and the normal useful lives, by items or by classifications of property, to determine and support this important element of costs.

MALTEX and MAYPO

Maltex is made from two grains, toasted wheat and malted barley.

Maypo, the only maple flavored cereal on the market, offers a pleasant change from plain oat cereals.

Both Maltex and Maypo are flavorful, nutritious, and very low in sodium.

A. 1. STEAK SAUCE

The refresher drink for breakfast, break time, anytime

Full-flavored RAVE, the new zestful pick-up drink, contains more vitamin "C" than an equal serving of fresh orange juice. Enriched with vitamins "C" and "A", RAVE supplies more than 100% of the average minimum adult daily requirement of vitamin "C". Serve refreshing RAVE — just add water.

Cramores nationally known and accepted citrus crystals and flavor bases are used for quality cooking, baking, food flavoring and ade-type drinks. Dri-Syrups for ade-type drinks are available in ten delicious flavors — just add water and serve. Order Cramores RAVE, crystals and Dri-Syrups from your dealer now. You and the people you serve will praise Cramores quality.

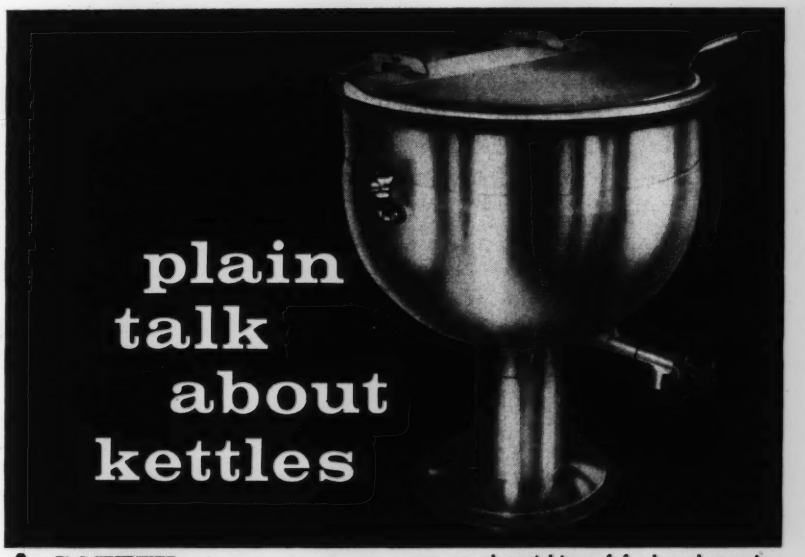
(Continued on page 410)



A. SAFETY
LEGION's stainless steel kettles with seamless drawn inner and outer jackets conform to the highest A.S.M.E. requirements.

B. DURABILITY
All component parts of LEGION kettles are made entirely of the heaviest practicable gauge stainless steel, and *will outlast your kitchen.*

C. SANITATION
All LEGION kettles have sanitation features required by the most rigid Health Department standards, as well as the Army, Navy, and Veterans Administration specifications. No other metal can equal the "food friendliness" of stainless steel for cooking and storage of food. Drip-proof cover and faucet meet the highest dairy industry standards.

D. FINISH
For more than 50 years, LEGION has excelled in the finishing of stainless steel cooking and serving utensils. LEGION kettle interiors have an extra smooth finish which prevents the sticking of food, and permits easy cleaning. The exterior finish is of a satin quality which blends in with your other stainless steel kitchen equipment . . . is easy to maintain, and does not show fingermarks.

E. ECONOMY
In this inflationary period with prices higher than ever before, costs are of major importance, LEGION's mass production techniques make it possible for our kettle prices to be the lowest in the industry.

A kettle's primary function is to cook food . . . it is an extremely simple piece of equipment. You do not have to pay a premium price for extra accessories, gimmicks and a jeweler's finish on your kettles, which add nothing to their efficiency.

CHECK THESE IMPORTANT KETTLE FACTS with your consultant and franchised LEGION kettle dealer.

LEGION's steam jacketed kettles are available for electric, gas or steam, in a wide range of capacities.

As a leader in the production of hospital apparel . . . our zealous workmanship, produces a quality, style, comfort and durability unequaled in our field. Samples and Quotations on Request.

Books for Schools of Nursing

FREE CATALOG

- ALL OF YOUR BOOKS FROM ONE SOURCE
- A DEPOSITORY FOR ALL PUBLISHERS
- SAVE TIME, EFFORT, HANDLING, MONEY

Our specialty is supplying schools of nursing with books. We pride ourselves on our facilities to serve them with our large stocks. We carry at all times a complete assortment of all medical and nurses' books of all publishers.

When you buy your text and supplementary books from one source, your bookkeeping is simplified—only one account need be carried. Regular publishers' school of nursing discounts are allowed on these orders. We'd like to serve you in every possible way.

WE PAY delivery charges on all hospital orders.

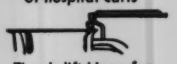
Vollrath
STAINLESS STEEL
Improved Individual Server

Fits shelf spaces of hospital carts



Thumb-lift hinge for one-hand pouring—opens lid flat and *braces it firmly* for efficient machine washing

Permanently insulated, solid construction
•
Flat, stable base prevents tipping
•
Wide-mouthed for easy aseptic cleaning
•
Dripless pouring lip

Keeps beverages HOT or COLD for hours

Holds temperature constant—keeps beverages fresh at bedside. Improved thumb-lift cover and roomy handle make it easy for patient to serve himself. Fits in 5½" shelf spaces of hospital carts. Wide mouth and wide-opening firmly hinged cover permit easy sterilization in dishwash machines. Heavy gauge stainless steel body, lining, and cover. Nothing to break. Pays for itself. 10-oz. capacity. No. 8210

NEW LOW-PRICE TRAY CARD HOLDER
Holds card just right to identify tray at a glance. Stainless steel, easy to keep clean and shining. Adds to service, *costs very little.* No. 9208.

First in stainless steel utensils for the medical profession

INSTANT THOROUGH MIXING!

NEW!
VERSATILE
VORTEX JR.
MIXER

Convenient Efficient Mixing

Just hold the tube or other vessel in your hand... press it against the revolving neoprene cup. A vortex forms at once for immediate mixing action!

No Stoppers... No Rods No Finger Capping

Saves time and energy. For use whenever a quick mix is called for . . . works well with any shape vessel.

- Test tubes . . . micro to 40 mm.
- Centrifuge tubes . . . all sizes
- Florence or Erlenmeyer flasks . . . small size
- Square or specially-shaped tubes

Ask your laboratory supply dealer for details, or write directly to:

SCIENTIFIC INDUSTRIES, INC.
Dept. P-261, 15 Park Street

AT LAST! A REALLY CONVENIENT
AUTOMATIC SYRINGE ATTACHMENT

REPEATS PRESET VOLUME
- Assembles instantly
- Setting locks in place
- Available to fit 7 Sizes Of Standard Syringes From 50 Microliters to 10 cc.

EASY TO HANDLE

Fine-thread adjusting screw permits accurate setting to any volume . . . comes apart or reassembles with a slight twist without changing the setting.

Any syringe becomes an AUTOMATIC PIPETTE with this simple new attachment.

Ask your laboratory supply dealer, or write directly to:

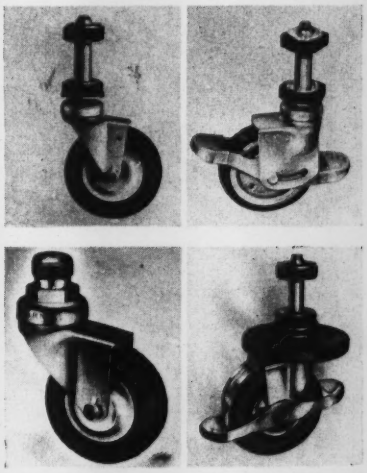
FREE DARNELL MANUAL gives valuable details on

DARNELL CASTERS & WHEELS for HOSPITALS



Describes over 4000 types of casters and wheels--making your selection for hospital application an easy job. Look in the Yellow Pages for your Darnell Distributor under "Casters".

Thousands of Darnell Casters and Wheels in use in the World's leading hospitals prove their dependability. Ready availability in a complete line of sizes and models with various treads (including Neoprene, Non-Conductive Rubber and Phenolic Wheels) and a variety of stems, top-plates and other fittings for ease of application to hospital equipment make them first choice for economy-minded buyers.

The HAYNES SUCTION METHOD

the best way to get DUST out of a mop

Dust mops are, as you well know, the enemy of all your pains to keep airborne bacteria under control. The Haynes Suction Method *keeps* dust collected—doesn't redistribute it from the dirty mop. In a small, mobile cabinet, taking power from any electrical outlet, the Haynes Method pulls dust from the mop and deposits it through a filter into a bin—for easy, safe disposal. The Haynes unit is sturdily constructed for a lifetime of use.

Quick — Sanitary — Fast — Economical
Simple — Better

ETHICAL and RELIGIOUS DIRECTIVES for CATHOLIC HOSPITALS

A new revised second edition of *Ethical and Religious Directives for Catholic Hospitals* has been published by The Catholic Hospital Association. There are sixty Directives numbered consecutively, with abundant references in the Appendix as well as a detailed Index. The present edition contains new matter concerning professional secrecy, experimentation, ghost surgery, psychotherapy, shock-therapy, unnecessary procedures, and the spiritual care of non-Catholics. References to statements of the Holy See are also included. The booklet contains clear answers to most of the ethical problems likely to arise in hospital practice. Write for your copies today. Supply your staff with this important publication.

25c a copy; 12, $2.75; 50—$10.00; 100—$17.50

The *Directives* booklet is invaluable for use with the new one-volume *Medico-Moral Problems* by Gerald Kelly, S.J., now in two bindings. Paper Cover **$3.00**; Cloth Cover **$5.00**.
